Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
ACADEMIC ADVISEMENT			
AA_OVERRIDE	Student Override data	Academic Advisement Student Data	
AA_OVRD_WHERE	New data for Overrides	Academic Advisement Student Course Data	
ACAD_PROG_WHIF	Acad Program what-if	Table contains student advisor status, degree checkout status, etc...	
RQ_LINE_TBL	Req Line Table	Requirement line key number (Background key) setup table.	
RQ_LN_DET_TBL	Requirement Line Detail Table	Requirement line key number sub record for line detail sequence values.	
RQ_GRP_TBL	Requirement Group Table	All Academic Requirement Groups at the institution. This table is the top level table in the Requirement Database.	Y
RQ_MAIN_TBL	Requirement Table	All Requirements in the Requirement Datastore.	Y
ROMNT_DESIG_TBL	Requirement Designation Table	Requirement designations that could be attached to courses are maintained in this table.	Y
ADMISSIONS			
ACAD_HISTORY	Academic History	A record of checklist items and external orgs for each student	
ADM_APP_CAR_SEQ	Adm Applicant Career Sequence	High level table for student application data. The sequence number allows multiple applications per career without violating the unique constraints for the table.	
ADM_APPL_CMP	Adm Application Component	Rating values for each component of a students Admission Application Evaluation.	
ADM_APPL_DATA	Admission Application Data	Base admissions application data record. Note: A student may have more than one application for a program, or multiple applications within a program.	
ADM_APPL_DEP	Deposit Information	Information regarding an enrollment deposit related to an admission application.	
ADM_APPL_EVAL	Adm Application Evaluation	Student application evaluation data by evaluation code.	
ADM_APPL_MATLS	Admission Applicant Materials	Records all the materials required and received from each student.	
ADM_APPL_PLAN	Admission Applicant Plan	Academic Plans which a person has applied to.	
ADM_APPL_PROG	Admission Applicant Program	Main admissions data record at the program level. Includes application status and admissions decision status. The data in this record is carried forward into the ACAD_PROG record when an action of matriculate (MATR) is saved on this record.	
ADM_APPL_RCTER	Adm Application Recruiters	Basic information related to an admission application. It is possible to assign multiple applications to one person. It is also possible to have a multiple program application.	
ADM_APPL_SBPLAN	Admission Applicant Subplan	Academic Subplans which an applicant has applied to. These plans are supplemental to the applicant's Academic Plan. In order to have an entry in this table an applicant must have applied to an Academic Plan.	
ADM_BASIS_ADMIT	Application Basis of Admission	Basis of admission data per application	
ADM_COMMENTS	Admission Comments Setup Table	Admissions comment codes for student by career.	
ADM_EVAL_RTNG	Adm Evaluator Rating	Rating data entered by an admissions evaluator.	
ADM_INTERESTS	Admission Interests	Academic Interests that may be indicated by an admission candidate or prospect but not necessarily offered as a plan or Subplan by a particular Academic Program.	
ADM_PRSPCT_CAR	Admission Prospect Career	Primary prospect data at the career level. Additional prospect data at the academic programs level may be saved in the ADM_PRSPCT_PROG record	
ADM_PRSPCT_PLAN	Admission Prospect Plan	Academic plans that an admission prospect is interested in and/or is being recruited for.	
ADM_PRSPCT_PROG	Admission Prospect Program	Academic programs that an admission prospect is interested in and/or is being recruited for.	
ADM_PRSPCT_SBPL	Admission Prospect Sub Plan	This table contains the academic subplans that an admission prospect is interested in and/or is being recruited for. Careers that recruit for specific subplans or have decentralized recruiting program can use this, but it is not required.	
DU_APP_COMM_TBL	Application Logging Comments	Duke custom table for application logging comments	
DU_APPL_LOG_TBL	Application Log Status	Duke custom table for application logging.	

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
DU_HI_STDNT_ACA	Stdnt Acad History Shortcut	Most current effdt academic data for all students found in the ACAD_PROG table.	
DU_HI_STDNT_ADM	Stdnt Admis History Shortcut	Duke custom table contains most current effdt admissions data for all students found in the ADM_APPL_PROG table who have ever been admitted to Duke (PROG_ACTION = 'ADMT') in a valid admit term (ADMIT_TERM <> '9999' or blanks).	
DU_HI_STDNT_APP	Stdnt Appl History Shortcut	Duke custom table contains most current effdt admissions data for all students found in the ADM_APPL_PROG table who have ever been admitted to Duke (PROG_ACTION = 'APPL') in a valid admit term (ADMIT_TERM <> '9999' or blanks).	
DU_SC_STDNT_ADM	Stdnt Admissions Shortcut	Most current effdt admissions data for all students found in the ADM_APPL_PROG table who have been admitted to Duke (PROG_ACTION = 'ADMT') in any future admit term (ADMIT_TERM <> '9999' or blanks and = or > the next admit term for the career). the career).	
DU_SC_STDNT_APP	Stdnt Applicant Shortcut	Duke custom table contains most current effdt admissions data for all students found in the ADM_APPL_PROG table who have applied to Duke (PROG_ACTION = 'APPL') in any future admit term (ADMIT_TERM <> '9999' or blanks and = or > the next admit term for the career). This means this table will includes students also found in DU_SC_STDNT_ADM.	
DU_SC_STDNT_TST	Stdnt Test Shortcut	Duke custom table contains the highest score for each test component reported for all students found in the DU_SC_STDNT_ACA and DU_SC_STDNT_ADM shortcut tables.	
EXT_ACAD_DATA	External Academic Data	External academic information for a person by school.	
EXT_ACAD_SUM	External Academic Summary	Academic information for a person by school.	
GENL_EVAL_COM	General Evaluation Committee's	All committee(s)/person(s) associated with a specific General Evaluation Code, by people.	
GENL_EVALUATION	General Evaluation	General Evaluation data that has been applied to a person grouped by Evaluation Code and Number.	
GRE_PROFLE_DATA	GRE Profile Data	Student profile data from the GRE files	
LSAC_ACI	LSAC Test Suspension Table	LSAC_ACI contains all records from the LSAT/LSDas load process which were loaded into LSAC_SUSPN. This is a 'live' table containing the Bio/Demo and Additional Candidate Info data.	
LSAC_SUSPN	LSAC Test Suspension Table	Suspense data by test record number	
LSDAS_ACI_SCH	LSDAS School Inf File	LSDAS data with school information	
PRIORWORK_EXPER	EE Prior Work Experience	Student prior job experience: employers, locations, dates worked, type of position, and pay rate.	
PRSPCT_RCR_CAT	Prospect Recruitg Categories	Prospect classifications into recruitment groups and categories. A prospective students and applicants can be in multiple groups and multiple categories within each group. Also, a recruiter may be designated for every group/category combination.	
SAT_SUSPN	SAT Suspense File	Suspense table for SAT test loads	
STDNT_RESPONSE	Student Response	Information about an applicants reasons and the choice to attend other institution(s).	
STDNT_TEST	Student Tests	Academic tests taken by a student. The child record STDNT_TEST_COMP allows multiple occurrences of the same test and component as long as each test date is distinct. Actual test scores are entered by date on STDNT_TEST_COMP.	
STDNT_TEST_COMP	Student Test Components	Child record of STDNT_TEST. Student test scores by test component.	
ACT_SUSPN	ACT Suspense File	ACT scores not successfully posted to students	Y
ADM_ACTION_TBL	Admissions Actions Table	Contains only the Program Actions that are valid for Admissions. When an Admissions operator prompts on Program Action in the Applicant Program record they will be prompting against this table and see only valid Admissions Actions.	Y
ADM_APPL_DEP_PR	Deposit Program Information	ADM_APPL_DEP is used to record information regarding an enrollment deposit related to an admission application by academic program. A student may be charged a deposit for each program..	Y
ADM_APPL_RCR_CA	Adm Application Recruit Cat	Recruitment category associated with an admission application.	Y

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
ADM_APPLCTR_TBL	Application Center Table	Application center is a high-level structure that is under the institution level and above the career.	Y
ADM_EVAL_COM	Adm Evaluation Committee	Admissions Evaluation Committee Table.	Y
ADM_EVAL_SCHEME	Adm Evaluator Scheme	Admission Applicants Rating Scheme used in application evaluation.	Y
ADM_EVALUATOR	Adm Application Evaluators	Admission Applicant Evaluator Table. Emplids designated as application evaluators.	Y
ADM_INTRST_HDR	Admission Interests Hdr	Student use priority data by career.	Y
ADM_RECRCTR_TBL	Recruiting Center Table	Recruiting center is an organizational structure that is a child of the institution and is associated with careers. More than one career is allowed per recruiting center.	Y
ADMIT_LVL_TBL	Admit Level Table	Setup table linking a program status with an admit level.	Y
ADMIT_TYPE_TBL	Admit Type Table	Setup table to define and describe the various admit types - categories to describe students as first year, transfer, etc...	Y
APP_FEE_CD_TBL	App Fee Code Table	Setup table to define and describe application fees for admissions	Y
APP_FEE_TBL	Application Fee Table	Setup table for admissions application fees.	Y
APP_SF_CD_TBL	App Sub-Fee Code Table	Setup table for the code used for application fees to define charges by career, program, plan, etc...	Y
APP_SUBFEE_TBL	App Sub Fee Table	Setup table for sub record to define application fees by career, program, plan, etc...	Y
DEP_DUE_DT_TBL	Deposit Date Table	Setup table to define due dates for deposit fees. The values are used to establish the due date value in adm_appl_dep when the deposit fee is calculated for a student.	Y
DEP_FEE_CD_TBL	Deposit Fee Code Table	Setup table to define and describe admissions deposit fees.	Y
DEP_FEE_TBL	Deposit Fee Table	Setup table to define and describe the admissions deposit fees assessed by the institution.	Y
DU_LAW_EXT_SUB	Duke Law External Subject Code	Duke custom table to contain external subject codes loaded from the LSDAS batch feed. This is used to display on panels subject name in place of the code.	Y
EVALUATION_TBL	Admission Evaluation Table	Setup table for evaluation codes which are used to link evaluation types with rating schemes.	Y
EXT_DEGREE	External Degrees	Degrees a student has received from external educational institutions.	Y
LSAC_ACI_MTRC	LSAC Suspense Schl Matric Info	LSAT/LSDAS data loaded into LSAC_SUSPN. This is a 'live' table containing the Bio/Demo and Additional Candidate Info for matriculants	Y
MATL_GRP_TBL	Material Group Table	Setup table for material groups	Y
MATL_GRP_TYP_TBL	Material Group Type Table	Setup table for material group types.	Y
RATING_CMP_TBL	Admission Rating Component Tbl	Defines the components within a rating scheme they will use in evaluating individuals.	Y
RATING_SCH_TBL	Rating Scheme Table	Rating scheme setup table.	Y
RECRUIT_CAT_TBL	Recruitment Category Table	Setup table to define and describe the various recruitment categories used in admissions.	Y
RECRUITER_CAT	Recruiter Categories	Categories of groups of recruiting in which the recruiter takes part.	Y
RECRUITERS	Recruiters	Individuals/emplids which can perform recruiting activities for the institution.	Y
REFERL_SRCE_TBL	Referral Source Table	All referral sources that may be used in admissions recruiting.	Y
SA_TCMP_REL_TBL	Test Component Relationships	Setup table for test components linking them to test ids.	Y
SA_TEST_CMP_TBL	Test Component Table	Components of a test such as a quantitative or verbal section. The SA_TCMP_REL_TBL, test component relationship table, is used to define the components that are valid for a test. The test component pairs table prompts but does not edit on the Test Components Table. This allows for entering components that aren't on the Test Components Table. You may wish to do this if a component is unique to a given test and you don't want to maintain it in the Test Components Table. Use SA_TEST_TBL to assign codes to academic tests and enter descriptions. An academic test is any test that a student must take to qualify for admission, satisfy prerequisites, or achieve advanced placement.	Y
SA_TEST_TBL	Academic Test/Exam Codes	Setup table for tests. Includes the description and the testing agency.	Y

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
ADMISSIONS			
ADDR_FERPA_VW	FERPA Address View	Addresses filtered according to student FERPA designations	
ADDRESSES	Address Type	Student address data by address type.	
ADDRPHONE_LNKVW	Address Phone Link View	View links phones to addresses.	
CHKLST_UPDATE	Checklist Item Update	Record of changes in checklist item status.	
CITIZEN_STS_TBL	Citizen Status Table	Citizenship status by country. Citizenship status differ by country, therefore country + citizenship status are the key structure for this table. This table was created in release 8.0 CITIZEN_STS_LNG table is the related language table for CITIZEN_STS_TBL.	
CITIZENSHIP	EE/Dependent Citizenship	A student or dependent country of citizenship. Enter related passport data on CITIZEN_PSSPRT.	
COMMUNICATION	Communication Data	A record of all incoming/outgoing/in person contacts for a student.	
DIVERSITY	Diversity Data	Diversity Data - including ethnic group	
DU_EXTORG_EXTND	Duke Org Additional Info	Duke custom table for additional information on external orgs.	
DU_HI_STDNT_BIO	Stdnt Bio History Shortcut	Most current effdt biodemo data for all distinct students found in the DU_HI_STDNT_ACA, DU_HI_STDNT_ADM, and DU_HI_STDNT_APP shortcut tables.	
DU_NAMES	Various Employee Names	Duke custom table for names	
DU_PERS_DATA	DU_PERS_DATA	Duke custom table to hold primary, preferred name, address, phone and e-mails.	
DU_SC_STDNT_BIO	Stdnt Bio Shortcut	Duke custom table contains the most current effdt biodemo data for all distinct students found in the DU_SC_STDNT_ACA, DU_SC_STDNT_ADM, and DU_SC_STDNT_APP shortcut tables.	
EMAIL_ADDRESSES	Email Addresses	Non-effective-dated electronic addresses.	
EMERGENCY_CNTCT	EE Emergency Contacts	Names, addresses, and telephone numbers for emergency contacts. A student may have multiple EMERGENCY_CNTCT records.	
EMERGENCY_PHONE	EE Emergency Cntct-Phone Nbrs	Phone numbers associated with an emergency contact name	
ETHNICITY_DTL	Ethnicity Detail	Ethnicity of the person.	
ETHNICITY_TBL	Ethnicity Table	Setup table to define and describe Ethnicity codes.	
EXT_ORG_TBL	External Organization Table	Information about external organizations such as other educational institutions, companies, etc. Each organization is assigned an identification number. If the organization is a school or offers courses then it should also be included in the SCHOOL_TBL. When adding an External Organization, you may automatically added to the SCHOOL_TBL.	
EXTERNAL_SYSTEM	External System ID's	Contains the effective dated External System ID's for the person.	
GENL_MATERIALS	General Materials	Links General Materials with Students.	
NAME_HIST_TBL	Name History	Ordered record of name changes by name type	
NAMES	Various Employee Names	Names other than the primary name. A primary name is always stored in the PERSONAL_DATA record. The Name field in this record does not use the PeopleSoft name format, so you can enter a full or partial name.	
NAMES_FERPA_VW	FERPA Names View	Names other than the employee's primary name. filtered by FERPA selections. An employees primary name is always stored in the PERSONAL_DATA record.	
ORG_CHECKLIST	Organization Checklist	Similar to person_checklist. Tracking for checklists related to external orgs	
ORG_COMM	Organizatn Communication Data	Used to record all incoming/outgoing/in contact that an institution has with an organization.	
ORG_COMMENT	Organization Comment	Used to record all incoming/outgoing comments that an institution has with an organization.	
PERS_DATA_EFFDT	Effective Dated Personal Data	One of the core records in the database. Use it to record effective dated personal data about an employee or applicant including name and address.	
PERS_NID	PERS_NID Record	Child record of PERSONAL_DATA and hold the NID_SBR which contains information about National ID (Social Security Number). Access to this field data is restricted by operator id security..	

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
PERSON_CHECKLST	Person Checklist	List of requirements, communication, staff assignments, etc. relative to a person. There is one record in this table for each dated list.	
PERSON_CHK_ITEM	Person Checklist Item	Items associated with a person checklist. There is one record in this table for each item or sequence number within a dated list.	
PERSON_COMMENT	Person Comment	Free-form comments made about a person. These comments may be shared or restricted based on user-defined Inquiry Groups.	
PERSONAL_DATA	EE Personal Data	Main record for student data. Contains basic personal information. There should be only one personal data record/emplid per person in the database.	
PERSONAL_PHONE	Personal Data - Phone Numbers	Personal Data - Phone Numbers	
RELATION_AFFIL	Relationship Affiliations	Legacy information of each relationship.	
RELATIONSHIPS	Relationships	Defines a student relationship another person. Multiple relations may exist. The GUARDIAN_RELATIONS field allow you to enter information about the legal relationship to this person, while the PEOPLE_RELATION field identifies the familial or other relationship to the person.	
RELIGIOUS_PREF	Religious Preference	Religious preference of the person.	
RESIDENCY_OFF	Official Residency Data	Official (Institution determined) residency information.	
SRVC_IND_DATA	Service Indicator Data	Service indicators are activated for a person on this record. Service indicators indicate whether to block, limit or provide preferential services to a person.	
SRVC_IND_SEL_VW	Srvc Ind Active Vw	All Active Service Indicators for a person.	
SRVC_IND_SF_C	Service Indicator by Career	Service indicators are activated for a person on this record. Service indicators indicate whether to block, limit or provide preferential services to a person. With Career data	
VAR_DATA_STRM	Variable data ISIR	Term based variable data for students by career and sequence number	
VISA_PMT_DATA	EE/Dependent Visa Data	Visas and permits held by an student/employee or dependent. Use a subordinate record, VISA_PMT_SUPPRT, to identify documents presented in support of each visa or permit.	
ADDR_USAGE_TBL	Address Usage Table	Setup table for the address usage code and description	Y
ADDRESS_TYPE	Address Type	Different types of addresses for each person. It is a child of PERSONAL_DATA, and a parent to ADDRESSES.	Y
ADM_FUNCTN_TBL	Administrative Function Table	Organizational structure for communications. Highest level, assigned to users for security	Y
CAMPUS_EVENT	Campus Event Table	Setup table for campus events	Y
CAMPUS_EVNT_ATT	Campus Event Attendees	Emplid, bio/demo data for campus event attendees.	Y
CAMPUS_LOC_TBL	Campus Location Table	Setup table to link locations to a campus.	Y
CAMPUS_MTG	Campus Meeting Table	Record to schedule a meeting number and to specify the meeting attributes	Y
CAMPUS_MTG_SEL	Campus Meeting Selections	Record to link campus events, meetings and attendees with status.	Y
CAMPUS_TBL	Campus Table	Setup table to define campus values under an institution.	Y
CHKLST_ITEM_TBL	Assignment Chklist Item Codes	Any type of checklist needed by the institution. Contains the specific items on the checklist. .	Y
CMNT_CATG_TBL	Comment Category Table	General categories of comments. Each Comment Category is associated with one Administrative Function. Each is also associated with one or more Inquiry Groups for viewing and access purposes.	Y
COMM_CA_CTX_TBL	Communication Catg Context Tbl	Associates specific contexts of communication with a general category.	Y
COMM_CATG_TBL	Communication Category Table	General categories of communication at the institution. Each category is associated with one Administrative Function. A category may be associated with one or more Inquiry Groups for access privileges.	Y
COMM_CTX_ME_TBL	Communication Context Meth Tbl	Associate different contexts of communication with the possible methods of delivery (letter, telephone, in person, e-mail, fax, etc.) as well as the possible directions of delivery (incoming, outgoing, in person).	Y
COMM_CTXT_TBL	Communication Context Table	Specific instances of incoming, outgoing, or in person communication tracked at the institution.	Y
COMM_GRP_3C_TBL	Communication 3C Groups Table	Setup table for communications groups under a communications category	Y

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
COMM_SPDKEY_TBL	Comm Speed Key Table	Setup table for communications speedkeys under an administrative function	Y
COUNTRY_TBL	Countries	Official Country codes per ISO. Also contains European Union member status and dynamic address formatting.	Y
DEPT_TBL	Departments	A set of organizational entities at the Institution. Primarily HRMS and Financial use.	Y
DU_HOME_PAPER	Duke Hometown Newspaper data	Duke custom table for hometown newspaper data.	Y
DU_REL_JUD_DST	Religious Preference	Duke custom table stores the religious judicatory and district of students.	Y
FACILITY_TBL	Facility Table	Facility Table tracks facilities where a campus event, i.e., a course, can be held.	Y
GRP_3C_TBL	Group 3C Table	Main setup table for the group 3C codes	Y
LOCATION_TBL	Institution Site Locations	This table has been synchronized with the ERP table definition. Any changes will need to be applied to the LOCATION_TBL definition in the ERP database. LOCATION_TBL is an edit table. Use it to record information about institution physical sites.	Y
MESSAGE_CATALOG	Message Catalog	Text for all error messages and warnings.	Y
NAME_PREFIX_TBL	Name Prefixes	Setup table to define and describe name prefixes.	Y
NAME_SUFFIX_TBL	Name SuffixTable	Setup table to define and describe name suffixes.	Y
ORG_CNTCT_PHN	Org Contact Phone Table	Phone data for People/Emplids designated as contacts for external organizations	Y
ORG_CONTACT	Organization Contact Table	People/Emplids designated as contacts for external organizations	Y
ORG_LOCATION	Organization Location Table	All the addresses an organization may have. Each location is assigned a unique number. Departments and contacts within an organization can be assigned a location number. Whenever an address changes it only has to be updated in one place, the ORG_LOCATION record.	Y
REL_MULT_RECPT	Relationships Mult Recipients	Letter Code(s) that will be used to determine if a copy of a communication is to be sent for the Related ID specified on the RELATIONSHIPS record.	Y
REL_PREF_TBL	Religious Preference Table	Setup table to define and describe codes for religious preferences.	Y
RELATION_HD_TBL	Relationship Table	Setup table for the PEOPLE_RELATION field, used in defining relationships. Stores the sex and limit of the relationship.	Y
ROOM_CHRSTC_TBL	Room Characteristics Table	Setup table to define and describe room characteristics.	Y
SRVC_IN_RSN_TBL	Service Indicator Reason	Service Indicator subrecord to show the reason for the SI, the department placing the SI and other data.	Y
SRVC_IND_CD_TBL	Service Indicator Code Table	Setup table to define and describe the service indicators used at the institution	Y
STANDRD_LTR_TBL	Standard Letter Codes	Setup table to define and describe standard letter codes used in communications	Y
STATE_NAMES_TBL	The high-order key to the table is COUNTRY.	Delivered table Pre-loaded with both character and numeric codes for U.S. states and Canadian provinces. The data in a similar table, STATE_NAMES_OTH, is identical to STATE_NAMES_TBL. The difference is STATE_NAMES_TBL is the edit table for the STATE field and STATE_NAMES_OTH is the edit table for the STATE_OTHER field. If you need a table with state/province names without COUNTRY, use STATE_NAMES_VW.	Y
FINANCIAL AID			
ANTC_AID_ITEM	Anticipated Aid Summary View	All financial aid not yet disbursed to a student.. By item type and career.	
ANTC_AID_TERM	Anticipated Aid Term	The total financial aid not yet disbursed to a student for a particular term..	
ANTC_AID_TOT	Anticipated Aid Total View	All financial aid not yet disbursed to a student..	
ANTICIPATED_AID	Anticipated Financial Aid	Financial did not yet disbursed to a student. By aid year and career.	
AWD_MESSAGE_TBL	Award Messages/Comments	This table allows users the ability to define text messages associated with an award (Item Type) to be sent to a student on their Financial Aid Notification Letter.

DRIVERS_LIC	Driver's License	Drivers License data (financial aid)	
DU_HI_FA_SEARCH	Stdnt FA Search Shortcut	Duke custom table contains most current effdt basic data and Yes/No flags used by FA for each student found in the DU_HI_STDNT_ACA shortcut table.	
DU_HI_STDNT_FA	Student FA History Shortcut	Duke custom table contains FA data (current and historical) for all students found in the DU_HI_FA_SEARCH shortcut table. The data is currently summarized by DU_FA_CATEGORY within an aid year. The STRM field is included in the record for future use if it is necessary to further summarize the data by term within aid year. STRM is not currently being populated.	
DU_IDOC_STAG1	IDOC Coversheet Staging Table	IDOC staging table	
EARLY_FA_OFFER	Early Financial Aid Offer	Early decision award as part of the admission process.	
INAS_PROF_EXT	Profile Overrides - INAS	All Profile Extension options to be used in INAS Institutional processing.	
INST_CONTROL	Base Internal Student Aid Tbl	This record houses data in the institutional application.	
INST_FAMILY	Inst App Family Member Table	Institutional Application information reported about the student's family members.	
INST_P_BAS_CALC	Institutional Computed Values	INAS calculations for Institutional Methodology as part of the institutional application data.	
INST_P_OPT_CALC	Institutional Computed Values	INAS calculations for Institutional Methodology as part of the institutional application data.	
INST_PARENT	Institutional Parent App Data	Institutional application data.	
INST_S_BAS_CALC	Institutional Computed Values	INAS calculations for Institutional Methodology as part of the institutional application data.	
INST_S_OPT_CALC	Institutional Computed Values	INAS calculations for Institutional Methodology as part of the institutional application data.	
INST_SCHOOL_PRF	School & Housing Preferences	Student housing and school preferences by aid year	
INST_STUDENT	Institutional Student App Data	Institutional application data.	
ISIR_COMMENTS	ISIR Comment Codes	ISIR comment codes per student by aid year.	
ISIR_COMPUTED	Computed Data from INAS/DOE	All computed fields from the Dept. of Education.	
ISIR_PARENT	Fed Parent Application Data	All data from the Free Application for Federal Student Aid (FAFSA). This table is effective dated to allow for changes to the application over time.	
ISIR_STUDENT	Fed Student Application Data	All data from the Free Application for Federal Student Aid (FAFSA). This table is effective dated to allow for changes to the application over time.	
ISIRS_VW	View of All Current ISIRs	This View contains all the current ISIRs by student, institution, aid year and date.	
LOAN_DISB_ACTN	Loan Disbursement Detail	Loan Disbursement Actions for a given Loan Application/Promissory Note. Disbursement Actions are generally exchanged between Duke and external processing entities.	
LOAN_DISB_MSG	Loan Disbursement Message	Messages for loan disbursements	
LOAN_DISBMNT	Loan Disbursement	Disbursement Numbers for a given Loan Application/Promissory Note.	
LOAN_MPN	Master Loan Prom Note	Master prom note data for students	
LOAN_MPN_ACTN	Loan Master Prom Note Action	Master prom note action details for students	
LOAN_ORIG_ACTN	Loan Orig Action	Loan Origination Actions for a given Loan Application/Promissory Note. Origination Actions are generally exchanged between Duke and external processing entities.	
LOAN_ORIG_DTL	Loan Application Amounts	Primary Loan Origination record (details), containing Loan Application/Promissory Note data.

STDNT_AGGR_ALL	Cumulative Student Limits	Lifetime financial aid aggregates	
STDNT_AGGR_SCHL	Aggregate Data by School	Financial aid aggregates by school	
STDNT_AID_ATRBT	Student Aid Attributes Table	Child table to the Financial Aid table STUDENT_AID. A student applying for aid would have a new record each year, and this table contains the attributes, and high level information relating to the application, awarding and processing of financial aid for the year.	
STDNT_AWD_PER	Student Award Period Table	Child table of STUDENT_AID. COA, EFC, and need data by award periods.	
STDNT_AWD_PKG	Staging Tbl for Awards	Table used to store Student Award Data.	
STDNT_AWD_PR_VW	Student Awd Process View	Student Award Process View - All Students whose accept amt > 0 and award status is = A(cept), by emplid, institution, aid_year, item_type, acad_career, and term.	
STDNT_AWRD_ACTV	Student Award Activity	Student Award Activity.	
STDNT_AWRD_DISB	Student Award Disbursements	Award Disbursement Detail Table	
STDNT_BDGT_SUMM	Student Budget Summary	Summary view of the budget items for all terms in an aid-year.	
STDNT_BUDGET_IT	Student Term Budget Item	All the student budget items or components for a given student term budget. An example of a budget item is Tuition, and a dollar amount for the term is associated.	
STDNT_DISB_MSG	Stdnt Disburse Detail Messages	Detailed messages related to error conditions found in the disbursement authorization process.	
STDNT_FA_TERM	Student Fin Aid Term Table	Consolidated view of student academic and financial aid term data for aid processing purposes. Created from STDNT_CAR_TERM or ADM_APPL_PROG for a new admit.

Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
STDNT_FAN_LTR	Student FAN Letter Attributes	Financial Aid Award Notification (FAN) data sent to students, and counter for Regular Term and Summer Term FANs.	
STDNT_PELL_RPRT	Pell EPPD Record	Pell data by student for institution, aid year, pell id and date.	
STDNT_PKG_VAR	Student Packaging Variables	Student variables used to package financial aid.	
STDNT_RSTRC_AID	Student Restricted Aid	Restricted financial aid that has been awarded to a student.	
STDNT_TERM_BDGT	Student Term Budget	Used to assign a financial aid budget to a student for a specific term. STDNT_TERM_BDGT identifies the specific type of budget for the term, and STDNT_BUDGET_IT contains all of the items or budget components that make up the budget.	
STUDENT_AID	Student Aid Table	Main table for the Financial Aid system. A student applying for aid would have a new record each year, and this record contains high level information relating to the application, awarding and processing of financial aid for the year.	
SUSP_PROF_CNTRL	ISIR Internals/Control Data	ISIR Suspense Management.	
SUSP_PROF_COMM	Base Student Aid Suspense Tbl	Data in the institutional application data. A suspense table for the student financial aid application	
AGGR_LIMIT_TBL	Aggregate Aid Table	Setup table for limit details per aggregate area and aid year.	Y
AGGR_PROG_TBL	Aggregate Program Table	Aggregate program setup table with undergraduate and graduate limits	Y
AID_YEAR_CAREER	Valid Careers for Aid Year	Information regarding a particular AID Year, the institution and the Academic Career.	Y
AID_YEAR_TBL	Aid Year Table	Aid Years and their descriptions for each institution. It is primarily used in the Financial Aid Module	Y
AID_YR_CAR_TERM	Terms by Careers and Aid Year	TERM for an Academic Career for a given aid year by institution	Y
BDGT_FORMLA_TBL	Budget Formula Sequence Table	Budget Formula Tbl - 01/11/97 - E.D. This table indicates the budget category, budget item code and the processing order for a formula. Part of Financial Aid - Budget Assignment.	Y
BUDGET_CATG_TBL	Budget Category Table	Setup table to relate budget item categories with budget item types per aid year.	Y
BUDGET_GRP_TBL	Budget Group Table	Setup table to define and describe budget group codes by aid year and career.	Y
BUDGET_ITEM	Budget Group Items	The BUDGET_ITEM table contains the components of a student budget group for a given academic/unit/term. The items are associated with the budget group, which is then assigned to a student.	Y
BUDGET_ITEM_TBL	Budget Item Table	Definitions for individual components or items of a student budget. The items are later associated with a budget group, which is then assigned to a student.	Y
DISB_ID_TBL	Disbursement Period Table	All disbursements and ID's associated with Disbursement Plans. An example of a Disbursement Plan would be a plan called "Quarter" which is for disbursements on a quarterly basis, and the individual disbursements associated with the plan would be Fall, Winter and Spring quarter.	Y
DISB_PLAN_TBL	Disbursement Plan Table	Setup table to define how aid is disbursed to students	Y
DISB_RULE_CHK	Disburse Rule Item Checklist	All Checklists codes associated with disbursement rules for item types'.	Y
DISB_RULE_ITM	Disburse Rule Item Type	All disbursement rules for item types'	Y
DISB_SPLIT_CD	Disbursement Split Code Table	Setup table to define split codes for disbursement plans	Y
EARLY_FA_CATGS	Early Financial Aid Categories	Used for the early decision award process.	Y
FED_AID_YR_TBL	Dept of Educ. Aid Year Table	Setup table to define start and end dates for federal aid years.	Y
INAS_LCL_PLCY	INAS Local Policy Options	Setup table for INAS rule sets.	Y
ISIR_COMMT_TBL	ISIR Comment Descriptions	Setup table to define ISIR comment codes	Y
ISIR_CONTROL	ISIR Internals/Control Data	Data elements necessary to maintain the FAFSA application and changes to ISIR data.	Y
ITEM_TP_FA_AWRD	Item Tp Prompt for Awards	Prompt table values for item types in financial aid awarding panels	Y
ITEM_TP_FA_DISB	Item Type Disb Plan/Split Cd	Default Split Codes for Item Types	Y
ITEM_TYPE_FISCL	Fiscal Item Type Table	Fiscal Item Type Table. Item types used in financial aid with tracing of fiscal limits.	Y
LENDER_TBL	Lender Branch Table	Defines Lender Branch information and processing options, by Aid Year.	Y

LN_ACTNMSG_TBL	Loan Action Message Table	Setup table to define messages for loan programs based on loan action type.	Y
LN_DESTPROF_TBL	Loan Destination Profiles Tabl	Setup table for loan destination profiles	Y
LN_FEE_TBL	Loan Fee Table	Setup table to establish loan fees per aid year.	Y
LN_TYPE_TBL	Loan Type Table	Setup table to define Loan Types, by Aid Year. Criteria include, but are not limited to, Loan Program, Category, Interest Rate, number of Promissory Notes.	Y
LOAN_EDIT_ERROR	Loan Edit Error Table	Errors from the loan origination process	Y
PELL_PMT_RPRT	Pell Default Setup Table	Setup table for Pell Grants	Y
PKG_BATCH_AWD	Staging Tbl for Batch Awards	Staging Table for Batch Financial Aid Awards	Y
PKG_EQTN_DTL	Packaging Equation Table	Packaging equation details	Y
PKG_PLAN_TBL	Financial Aid Packaging Plan	Base setup table for packaging plans - by aid year and career.	Y
RSTRC_AID	Restricted Aid Table	Setup table for restricted aid id values per aid year.	Y
STDNT_ATTR_DTL	Student Attribute Table	Student Attribute Table	Y
STUDENT FINANCIALS			
ACCOUNT_SF	Account (Student Financials)	Summary account for student transactions.	
ACCOUNT_TOT_VW	Account Total View	Sum of Account balance for a Business Unit and Emplid	
BI_BILL_HEADER	Billing Invoice Header	Main record for student invoices. Record shows emplid and invoice id plus other high level data. Parent of BI_BILL_DETAIL.	
BI_BILL_MESSAGE	Bill Messages	Message numbers attached to an invoice id.	
BI_BILLING_LINE	Billing Line	Child of BI_BILL_HEADER, Contains the item number and item lines that were included on an invoice.	
BI_REQ_MSG	Billing Request Message	A record of message IDs included in a particular billing request	
CALC_MESSAGES	Calc Error/Warn Messages	Tuition and fee calculation messages.	
COLLECT_EFFORT	Collection Effort	After the assign collector process is run, this record records all activity by collection id.	
COLLECTION_SF	Collection Record	Collection items (past due charges) identified by the credit history process and then populated in this table by the assign collector process.	
CREDIT_HISTORY	Credit History	Results of the credit history process. Student due charges are classified into aging categories according to institutional requirements	
CSH_OFF_RCPT_L	Cashier Office Receipt Line	Target (General Ledger) detail for cashier receipts	
CSH_OFF_RCPT_T	Cashier Office Receipt Tender	Tender details for cash receipts	
CSH_OFF_RECEIPT	Cashier Office Receipts	Base receipt transaction table.	
DEP_CALC_MSG	Deposit Fee Calc Messages	Messages for batch or real-time deposit calculations - Admissions	
DU_BILL_DETAIL	Bill Details	Duke custom table for invoice transaction detail.	
DU_STDNT_INSUR	Duke Student Insurance Data	Duke custom table for Student Insurance Data	
GL_INTERFACE	General Ledger Interface	General ledger debit and credit definitions for item types. These are the General Ledger values that are sent through the PS - SAP/R3 interface.	Y
GRE_SUSPN	GRE Test Suspension Table	Suspense table for GRE files	
GROUP_ERR_TBL	Group Line Error Table	Error message detail for group lines that fail to post	
GROUP_INFO_SUMM	Group Info. Summary	Header for transaction batches in group post.	
GROUP_LINE	Group Line Information/Check	Staging table for student account transactions entered in group data entry or loaded through external file load.	
ITEM_DUE_SF	Student Account Due Charges	Due charges	
ITEM_LINE_SF	Item Line	The basic detail transaction table for student accounts. A child of ITEM_SF. This record includes an original transaction and any subsequent adjustments to the original.	
ITEM_SF	Item Record	Base transaction table for student accounts. Contains the item type field.	
ITEM_XREF	Item Cross Reference	Item Cross Reference	
JRNL_LN_FS	Journal Line Details	Journal line details. Journals are exported to SAP/R3 for general ledger processing.

Record Name	Record Description	Long Description	Setup
PAYMENT_TBL	Payments	Transactions with a item type category of P or F, which are assigned a payment_id in processing.	
QUICK_POST_TBL	Quick Post Item	Student account transactions posted directly to the account - not through group post.	
REFUND_DTL	Refund Detail	Refund transaction subrecord showing the amounts refunded and the corresponding item numbers.	
REFUND_HDR	Refund Header Record	Main record for student account refund transactions. Contains student information and address.	
REFUND_MSG_HDR	Refund Message Header	Summary data for batch refunds.	
REFUND_MSG_LINE	Refund Messages	Detail data for batch refunds.	
SF_ACCTG_LN	SF Accounting Line	Consolidated accounting detail created by the general ledger process.	
STDNT_EQUTN_VAR	Student Equation Variables	SF Student Equation Variables. Free form data fields (three field types) used in tuition calculations. Stores meal plan, insurance data, etc.	
TUIT_CALC_TBL	Tuition Calc Table	Results table for the tuition calc process.	
ACCT_TYP_TBL_SF	Account Types - SF	This record contains account types used by the general ledger interface.	Y
ADJ_CODE_TBL	Adjustment Code Table	Setup table for tuition and fee adjustment codes and descriptions	Y
ADJ_REASON_TBL	Adjustment Reason Table	Setup table for the tuition and fee adjustment reasons for each adjustment code.	Y
ADJ_TERM_CD_TBL	Adjustment Term Code Table	Tuition and fee adjustment codes and reasons that are term specific	Y
ADJ_TERM_TBL	Adjustment Term Table	Valid term data for tuition and fee adjustments	Y
AGING_CAT_TBL	Aging Category Table	Setup table to define the categories for past due transactions. Used by the credit history process.	Y
AGING_TBL	Aging Table	Base setup table to define past due categories for charges. Charges are assigned aging categories during the credit history process.	Y
BI_ACCT_STD_REQ	Accounts for Std Req	Billing request record for billing by account type.	Y
BI_BILL_MSG_AGE	Billing Msg by Item Type	Setup table to link billing messages to aging categories.	Y
BI_BILL_MSG_ALL	Billing Msg to All Students	Setup table for billing messages to be included on all invoices.	Y
BI_BILL_MSG_CUS	Billing Msg by Customer	Table to assign a billing message to a specific emplid.	Y
BI_BILL_MSG_ITM	Billing Msg by Item Type	Setup table to link billing messages to a range of item types.	Y
BI_BILL_MSG_ORG	Billing Msg by Organizations	Table to assign a billing message to a specific external org id	Y
BI_BILL_MSG_TBL	Billing Msg Table for SF	Setup table for all messages. Key is message id, text of the message is specified in this record.	Y
BI_CAR_STD_REQ	Career for Std Req	Billing request record for billing by career/program or plan.	Y
BI_IVC_LAYOUT	Billing Invoice Layout	Billing Invoice layout setup table.	Y
BI_MSG_CAT_TBL	Billing Message Cat Table	Setup table for all billing messages	Y
BI_REQUEST	Billing Request	The selection criteria used for a particular billing request.	Y
BI_STD_REQ_TBL	Billing Standard Request Table	Setup table to define criteria used to select students for billing	Y
BUS_UNIT_TBL_SF	SF Business Unit Table	Main setup table for the business unit, an organizational unit in student financials. Duke University maintains only one business unit.	Y
CLASS_FEE_TBL	Class Fee Table	Setup table to charge per class fees by term.	Y
CLST_DETL_TBL	Static Course List	Setup table to identify Course and Wild Card data for single courses included in a Course List.	Y
CLST_FEE_TBL	Course Fee Table	Setup table to link a course list with a term.	Y
CLST_MAIN_TBL	Static Course List Def File	Setup table for Course Lists. Course Lists are used by the Requirement Datastore entries to specify requirements.	Y
CLST_SUBFEE_TBL	Course Sub Fee Table	Setup table to establish the cost for a class included in a courselist.	Y
COLL_CRITERIA	Collection Criteria Record	Setup table to describe how student account collections will be distributed when the assign collector process is run.	Y
COLL_LTRITM_TBL	Collection Letter Item Table	Setup table to link template codes with letter codes and to specify the days in collection.	Y
COLL_LTRTMP_TBL	Collection Letter Template Tbl	Setup table for letter templates to define address usage, name type checklist type and mailing code for collection letters.	Y
COLLECTOR_O_SF	SF Collector Record	This table is populated by the assign collector process. External Org ID	Y

CSH_MSG_BD	Cashier Message (Business Dt)	Setup message to print on receipts for a business day.	Y
CSH_MSG_TARGET	Cashier Message (Target)	Setup message to print on receipts with a specific target	Y
CSH_MSG_TENDER	Cashier Message (Tender)	Setup message to print on receipts with a specific tender	Y
CSH_OFF_CASHIER	Valid Cashiers for an Office	Setup table to link a cashiering office with cashiers (emplids).	Y
CSH_OFF_TBL	Cashiering Office Table	Setup table to define and describe the cashiering offices at the institution.	Y
DU_PAYROLL_CAL	Duke Payroll Calendar	Duke custom version of the payroll history calendar.	Y
FOLLOWUP_TBL	Follow Up Table	Setup table to define follow-up actions used in the collections process.	Y
GROUP_CLST_TBL	Group Course List Table	Setup table for courselists used to charge tuition	Y
GROUP_CONT_INFO	Control Group Input	Header record for student financial transactions entered through group post or loaded via external file load.	Y
GROUP_FEE_TBL	Group Fee Table	Setup table for fee codes assigned to tuition groups	Y
GROUP_TYPE_TBL	Group Type	Setup table for categories of transactions processed through group post.	Y
ITEM_ACCT_TYPE	Valid Account Types	Setup table related to item type setup. Established the sf account types to which the item type can be posted.	Y
ITEM_TYP_FA_FEE	Item Type Fee Table	Setup table for loan fees by item type and aid year.	Y
ITEM_TYPE_1_TBL	Item Type Control Table	Control table for item types. Highest level in the parent/child structure	Y
ITEM_TYPE_FA	Item Type Table	Basic student account transaction setup table for financial aid item types (Item type category = F) Additional attributes are added in this table..	Y
ITEM_TYPE_TBL	Item Type Table	Basic student account transaction setup table. Item This table includes transaction description.	Y
MIN_MAX_FEE	Min/Max fee Table	Setup table to define limit rules for fee amounts.	Y
ORIGIN_TBL	Group & Deposit Origins	Setup table to define transaction sources for group post.	Y
PROG_ACTION_TBL	Program Actions Table	Setup table to define and describe the program actions available at the institution.	Y
SEL_CRITER_TBL	Group Selector Criteria	Setup table to Define criteria used to sort students onto tuition groups where they will be considered for specific charged. Defined by the institution.	Y
SEL_GROUP_TBL	Selection Group Table	Setup table to describe the tuition groups used at the institution	Y
SPEEDTYP_TBL	SpeedTypes	Setup table to predefine general ledger attributes for cash receipt transactions	Y
TARGET_KEY_TBL	Target Keys Cashiering	Targets are predefined receipt transactions which provide the general ledger information for the R3 Interface.	Y
TERM_FE_CD_TBL	Term Fee Code Table	Valid term fee code setup table.	Y
TERM_FEE_TBL	Term Fee Table	Setup table for charges based on student enrollment and calculated by the tuition calc program.	Y
TERM_SUBFEE_TBL	Term Sub Fee Table	Child of TERM_FEE_TBL that specifies how charges are to be assessed.	Y
WAIVER_CODE_TBL	Waiver Code Table	Setup table for waiver code values used in student financials tuition calculations.	Y
STUDENT RECORDS			
AA_OVRD_CRSDATA	Override course data	Academic Advisement Student Course Data	
ACAD_DEGR	Student Degree Table	All Academic degrees a student has earned.	
ACAD_DEGR_HONS	Student Degree Honors Table	All Academic honors a student has earned for a degree.	
ACAD_DEGR_PLAN	Student Degree Plan Table	All Academic Plans in which a student earned a degree at the university.	
ACAD_PLAN	Student Academic Plan Table	All Academic Plans declared by a student. Corresponds with a degree objective and a major, minor or concentration. A plan must be related to a student's academic program.	

SISS Reporting
Records Commonly Used in Queries
By Functional Area

Record Name	Record Description	Long Description	Setup
ACAD_PROG	Student Academic Program	Main table for student program information and activity. Initial row is automatically created when a student is matriculated in admissions. May also be manually added. Main record for student status at the institution.	
ACAD_SUBPLAN	Student Academic Subplan Table	Academic SubPlans which a student has declared. These plans are supplemental to the student's Academic Plan. In order to have an entry in this table a student must have declared an Academic Plan, and there must be an entry in the Academic Subplan Table for a valid subplan of that plan.	
ACCOMP_TBL	Accomplishment Table	The ACCOMP_TBL contains all your organizations accomplishments. Accomplishments are: 1) languages 2) degrees 3) licenses or certificates 4) honors or awards 5) professional memberships or 6) tests. The ACCOMPLISHMENT field must be unique across all these accomplishment types. The field ACCOMP_CATEGORY identifies the accomplishment as one of the above listed categories.	
ACCOMPLISHMENTS	Person Accomplishments	Records additional student data such as language competencies, tests, etc.	
ATHL_PART_SPORT	Athletic Participation Sport	Effective dated header record for Athletic Participation Status. These records maintain information about a students participation in university/college sponsored sports.	
ATHL_PART_STAT	Athletic Participation Status	Student participation in university/college sponsored sports. The athletic participation codes defaults a student's status and NCAA eligibility.	
CANC_CLASS	Classes Cancellation table	Batch record for the class cancellation process by class id	
CANC_TERM_CLASS	Term / Classes Cancellation	Batch record showing student class cancellation.	
CLASS_PRMSN	Class Permissions Table	Permission Numbers issued for a given class section.	
CLASS_ROSTER_VW	Class Roster On-Line View	This view is used to select all students who are enrolled in a specific class in a term.	
DEGR_RPT_RSLT	Graduation Report Results	Degree Audit Results	
DU_ATTR_SHORTCU	Duke Student Attributes	Duke custom table for student attributes.	
DU_FLD_ED_DATA	Duke Field Education Data	Duke custom table for Divinity Field Education data	
DU_HI_SEARCH	Stdnt History Search Shortcut	Most current effdt miscellaneous bio/demo data and Yes/No flags for each distinct student found in the DU_HI_STDNT_ACA, DU_HI_STDNT_ADM, and DU_HI_STDNT_APP shortcut tables. This data is used to group students in various ways regardless of career.	
DU_HI_STDNT_CRS	Stdnt Course History Shortcut	Duke custom table contains the course (Duke & transfer) data (current and historical) for all students found in the DU_HI_STDNT_ACA shortcut table.	
DU_SC_STDNT_ACA	Stdnt Academic Shortcut	Duke custom table contains most current effdt academic data for all students found in the ACAD_PROG table with the following restrictions. 1. Students with a current (PROG_ACTION of 'ACTV', 'ADMT', 'DATA', 'LEAV', 'MATR', 'PLNC', 'PRGC', 'RADM', 'RLOA', or 'TRAN') are always included. 2. Students with a current (PROG_ACTION of 'DISC', 'DISM', 'SPND', or 'VDIS'),OR with a current (PROG_ACTION of 'ADRV' and PROG_REASON of 'AMAT')PROG_REASON of 'AW/D', 'CNCL', 'DETH', 'DUPL', 'FIN', 'GMEM', 'IMM', 'NSHW', 'PYCL', or 'VIS')AND with an EFFDT within the current term are included. 3. Students with a current PROG_ACTION = 'COMP' and an EFFDT or ACTION_DT within the current term are included.	
DU_SC_STDNT_CRS	Stdnt Course Shortcut	Duke custom table contains the course (Duke & transfer) data (current and historical) for all students found in the DU_SC_STDNT_ACA shortcut table.	
DU_TRANSCRIPT	DU Transcript Header Info	Duke custom table for transcript data	
ENRL_MSG_LOG	Enrollment Message Log	Used by the Enrollment Engine to return informational and error messages pertaining to an enrollment request.	
ENRL_REQ_DETAIL	Enrollment Request Detail Line	Used by the Enrollment Engine to determine what enrollment requests to process. Each request is independent of each other. The Enrollment Engine can accommodate more than one student within an Enrollment Request ID.	
ENRL_REQ_HEADER	Enrollment Request Header	General information pertaining to an Enrollment Request.	
ENRL_VER_PRT_HD	Enrl Ver Print Header	Header for the enrollment verification print header	

SISS Reporting

EXTRACUR_ACTVTY	Extracurricular Activities	Extracurricular activities and information about that activity, such as the time spent.	
GRADE_ROSTER	Class Grade Roster	Class Grade Roster table with grade data.	
HONOR_AWARD_CS	CS Honors/Awards	Student honors and awards. You can create multiple HONOR_AWARD records for a student.	
INSTR_ADVISOR	Instructor/Advisor table	Instructors and advisors as well as instructor type.	
INSTR_CLASS_VW	Instructor Class View	By instructor ID and term, all the sections that that instructor teaches for the specified term.	
MLSTN_ATMPT	Student Milestone Attempts	Milestone update history	
PIN	Personal ID Number Table	Student PINs (Personal Identification Number).	
SA_REQUEST_DTL	Request Details	Detail data for report requests (transcripts) showing the name and address for sending the report.	
SA_REQUEST_HDR	Request Header	Request table for transcripts.	
STDNT_ADVISOR	Student Advisor	Advisor assigned to student	
STDNT_ADVR_HIST	Student Advisor History	This table is used to record the Advisors to whom students are assigned.	
STDNT_AWARDS	Student Awards	Main record for student financial aid award data.	
STDNT_CAR_MLSTN	Student Milestone	Student Milestone data by career	
STDNT_CAR_TERM	Student Career Term Table	Students activated for a term. Student career and program data for enrollment, as well as academic levels, load and overrides. Primary academic record used in tuition calculation.	
STDNT_CAREER	Student Career	Careers a student has enrolled in or is eligible to enroll in courses.	
STDNT_CONS_STAT	Student Consolidated Stats	Consolidated stats	
STDNT_ENRL	Student Enrollment Table	Main table for student enrollment information by term.	
STDNT_ENRL_APPT	Student Appointment Table	Student appointments for a Session . To have an entry in this table, the student must have at least one entry in the Student Session table.	
STDNT_ENRL_VW	Student Enrollment Table	Student enrollment information by term.	
STDNT_GRADE_DTL	Student Grade Detail	Assignment grades for students by class.	
STDNT_GRADE_HDR	Student Grade	Student grade detail by class.	
STDNT_GRP	Student Groups	All student group to which a student belongs.	
STDNT_GRP_HIST	Student Groups History	History by effective date for student groups a student belongs to.	
TRNS_CRSE_DTL	Student Transfer Course Detail	Detail information about how courses taken by a student from another institution are transferred as internal courses.	
TRNS_TEST_DTL	Student Transfer Test Detail	Detail information about how tests taken by a student are converted into internal courses.	
TRNS_TEST_MODEL	Student Test Credit Model	Setup table to establish test credit transfer models.	
ACAD_CAL_TABLE	Academic Calendar Table	Academic Calendar Definition Table	Y
ACAD_CALSES_TBL	Academic Calendar Session Tbl	Academic Calendar Definition Session Setup Table. Relates sessions to terms and academic years (by career)	Y
ACAD_CALTRM_TBL	Academic Calendar Term Table	Academic Calendar Definition Term Setup Table. Relates Terms to Academic Years (by career)	Y
ACAD_CAR_PTRS	Academic Career Pointers	Career pointer rules setup	Y
ACAD_CAR_TBL	Academic Career Table	All Careers that an institution offers and is used to summarize statistics on the academic transcript.	Y
ACAD_DEGR_SPLN	Student Degree Sub-Plan Table	The Student Degree Plan Table is a list of all Academic Subplans in which a student earned a degree at the university.	Y
ACAD_GROUP_TBL	Academic Group Table	Setup table for academic groups. A part of academic structure	Y
ACAD_LEVEL_TBL	Academic Level Table	Defined relationship between Academic Level and the Total Units required within a Level Status Rule and SetID.	Y
ACAD_LOAD_TBL	Academic Load Table	Setup table for the various academic load definitions - full -time, part-time, etc..	Y

Record Name	Record Description	Long Description	Setup
ACAD_ORG_FS_OWN	Acad Organization Owner Table	This table links an academic organization to a department setup under the financials business units. (Not currently in use)	Y
ACAD_ORG_HR_OWN	Acad Org HR Owner Tbl	This table links an academic organization to a department setup under the human resource business units (not currently in use)	Y
ACAD_ORG_TBL	Academic Organization Table	Organizational entities in the academic organization. An ACAD_ORG may be assigned to a college, department, division, etc. in the organizational hierarchy. The Tree Editor is used to build a hierarchy of these codes, and to identify and group them into the appropriate organizational levels.	Y
ACAD_PLAN_OWNER	Academic Plan Owner Table	The academic organization responsible for the administration of an academic plan.	Y
ACAD_PLAN_TBL	Academic Plan Table	A focus within an Academic Program. Academic Plans are typically majors, minors or specializations.	Y
ACAD_PROG_OWNER	Academic Prog Ownr Tbl	This table links an academic program to an academic	Y
ACAD_PROG_TBL	Academic Program Table	All academic programs that an institution offers. Students are admitted to Academic Programs.	Y
ACAD_SUBPLN_TBL	Academic Sub Plan Table	A focus within an academic plan. An example of a subplan might be a concentration within a major (plan).	Y
APPOINTMENT_TBL	Enrollment Appointment Table	Enrollment time periods by student and term/session	Y
ATHL_PART_TBL	Athletic Participation Values	Setup table for Athletic Participation Codes (sports) including description and NCAA flags.	Y
CATLG_CAR_TBL	Academic Career Level Table	Catalog setup table for an academic group and career to specify the catalog to value.	Y
CLASS_ASSOC	Class Associations	Data relating to Associated Class Sections. Class Sections within the same Course ID, Course Offer Number, Term and Session are grouped by setting their Associated Class to the same number. Class Associations entries are created as Class Sections are Scheduled.	Y
CLASS_ATTRIBUTE	Class Attribute Table	Catalog print attributes for a Course within a term. These attributes cause an attribute description to print in the Schedule of Classes, and can also be used as categories for reporting and analysis.	Y
CLASS_CHRSTC	Class Characteristics Table	Setup table for class characteristics - to establish room characteristics per course offer number and class section.	Y
CLASS_COMPONENT	Class Components	All the valid component codes for a course. It is automatically populated the first time an Associated Class is assigned to Class Section in the Schedule of Classes/Schedule New Course panel groups. The default values are derived from the Course Catalog Component table.	Y
CLASS_INSTR	Class Instructor Table	Setup table to define and describe Instructors that teach each section of a class.	Y
CLASS_MTG_PAT	Class Meeting Pattern Table	Class section data that identifies where and when that class section meets.	Y
CLASS_RSRV_CAP	Class Reserve Capacity Table	Data that reserves the class capacity.	Y
CLASS_RSRV_GRP	Class Reserve Capacity Table	Data used to reserve the class capacity.	Y
CLASS_TBL	Class Table	Class data for the schedule of classes. Each row in the table corresponds with an offered class section.	Y
COMMIT_ROLE_TBL	Committee Role Table	Setup table for committee roles	Y
COMMITTEE	Committee Table	Setup table for committees	Y
COMMITTEE_MEMBR	Committee Member Table	Setup table to assign an emplid to a committee and a committee role	Y
CRSE_ATTR_TBL	Course Print Attribute Table	Course Attributes that can be associated with a Course. Course Attributes are typically printed in the Course Catalog and Schedule of Classes.	Y
CRSE_ATTR_VALUE	Course Attribute Value Tbl	Valid values within a Course Attribute. An attribute value must be assigned to each attribute a course is given.	Y
CRSE_ATTRIBUTES	Course Attribute Tbl	Catalog print attributes for a Course. These attributes cause an attribute description to print in the Course Catalog, and can also be used as categories for reporting and analysis.	Y
