How To…

Add Class Permission Numbers

As part of the registration process, some classes have a permission number requirement. Once you receive the permission number from the instructor or department for the particular class, you will need to enter it on the Add Classes page. Without the permission number, you will not be able to enroll in the class.

Permission Numbers are added in the book bag or during enrollment of the enrollment process.
You will be taken to the Enrollment Preferences page.

Enter the permission number here.
