Instructions for Remote Desktop App for Windows
Technical requirements: Operating systems Windows 7, 8, 8.1 and 10

- Click on the Start Menu
- Choose Control Panel
- Select Remote App and Desktop Connections (you might need to change the view by from Category to Large or Small Icons)

- Click on Set up a new connection with RemoteApp and Desktop Connections
• Enter the webfeed URL in the next window then click Next
  o URL: https://siss-imnra-pap1.win.duke.edu/RDWeb/Feed/webfeed.aspx

• Click Next to trust the connection you just entered.
• Enter the following information in the resulting window:
  o User name: win.duke.edu\NetID
  o Password: Your NetID password

• You should now see the Adding connection resources window. This will take a few seconds.
• When it is complete you will see the success window. Click Finish

• The next window will show you what you have access to.
You can access your app by clicking on Start -> All Programs -> Remote App and Desktop Connections -> Work Resources.

If you want this on your desktop, right click and choose Send-To then select Desktop to make a shortcut.

Double-click to launch the RemoteApp.
